

2018 Public Works Construction Project Summary

13th Avenue SW and 12th Avenue SW Sanitary Storm Sewer Relief Lines (J8611)

Construction is anticipated to start September 1, 2018 and be completed in December 2019

This project will provide additional sanitary and storm water capacity for current and future development. Once completed, this project will limit street flooding that is occurring on 2nd Street SW during large storm events.

Project Benefits

This project will:

- Provide additional sanitary sewer and storm sewer capacity that is needed along the 2nd Street SW corridor for current and future development.
- Put necessary sanitary sewer and storm sewer mains in place in advance of the reconstruction of 2nd Street SW from 11th Ave to Highway 52 project scheduled for 2020.

Construction Impacts

Impacts to vehicle traffic:

- No traffic will be allowed along 13th Avenue SW in the work zone until all utilities are installed from 2nd Street NW to 2nd Street SW.
- No traffic will be allowed along 12th Avenue SW in the work zone until all utilities are installed from 1st Street NW to 2nd Street SW.

Impacts to pedestrians:

- Sidewalks will be closed along 12th Avenue SW and 13th Avenue SW during the construction project.

Impacts to recreational trails/paths:

- The trail in Kutzky Park north of 13th Avenue NW and 2nd Street NW will be closed for the installation of storm sewer through the park.

Project Cost and Funding

The project costs approximately \$5M and will be funded from DMC State and Local funds.
